

COSTUMER SEGMENTATION

Machine Learning Task

BY MUHAMMAD KHUZAIN

***"It always seems impossible
until it's done."***

- NELSON MANDELA

DATA SET

Using Data set ML_2_Fellow.zip from link below, and start the answer

<https://github.com/Syukrondzeko/Fellowship>

1. What items customers buy the most and are there any items we should ignore?

The item that customers buy the most: **WORLD WAR 2 GLIDERS ASSTD DESIGNS, JUMBO BAG RED RETROSPOT, WHITE HANGING HEART T-LIGHT HOLDER, ASSORTED COLOUR BIRD ORNAMENT, PACK OF 72 RETROSPOT CAKE CASES**

Items we should ignore: **SET OF 3 PINK FLYING DUCKS, DOLPHIN WINDMILL, CRACKED GLAZE EARRINGS BROWN, LASER CUT MULTI STRAND NECKLACE, SET/3 TALL GLASS CANDLE HOLDER PINK**

2. What is our strategy to increase sales based on our export destination countries?

Strategy to increase sales based on our export destination countries:

1. Focus on countries that has highest total quantity goods
2. Reduce on countries that has least total quantity goods
3. Focus reducing cancelation transaction in every country.
4. Try to give discount in highest total quantity countries
5. Give convenience in exporting goods.

3. Do customer segmentation appropriately. Please explain in detail and completely
